

The background of the advertisement features a close-up photograph of two pillows and a pair of glasses. One pillow has a bold, black and white zebra-like print, while the other has a delicate, monochromatic floral or leaf pattern. A pair of gold-rimmed glasses rests on the floral pillow. The lighting is soft, creating a sophisticated and elegant atmosphere.

SIC GLOBAL TEXTILES

# Signature Pillow Collection

Welcome to our Signature collection, an extensive new range of ready to order decorative printed pillows, specially designed and curated by us, featuring the latest contemporary and classic interior trends.

Our pillows are available in the following standard sizes:

square:	rectangle:
45 x 45 cm, 50 x 50 cm	30 x 50 cm
60 x 60 cm, 70 x 70 cm	40 x 60 cm

If you require a size that is not listed above, or would like to have your own custom design or pattern printed on pillows, we can often provide a completely bespoke solution that meets your needs. Just contact our sales team who will be happy to discuss possible options in more detail.

Each pillow comes as standard with an outer removable polyester cover and zipper, and a 100% polyester filling.

We offer an extensive variety of PFP high quality polyester base fabrics to select for printing on. Further detail on these fabrics can be found in the supplementary insert.

As well as having the flexibility to choose the specific base you want to print on, from our currently available options, it's also possible to configure each side of the pillow specifically to your needs - for example so that both the front and back are printed, or just the front printed and the back in the same fabric, but selected from our wide choice of ready available uni plain upholstery colours. We can also add piping around the perimeter of the pillow for a defined edge, in general this works best when it's a continuation of the fabric used in the main body of the pillow.

If you are looking for plain colour pillows, to either have together with your printed items or alone, it's always possible to select fabrics from our uni collections. Our sales team can help you further with this.

We very much hope you enjoy selecting from our catalogue and if you have any questions or require any further information on our products and services, please contact our sales team.

# Bohemian Craft

We designed our Bohemian pillows to make a relaxed and casual impression anywhere in the world. Inspired by the trend for tactile global fabrics, mud cloth and textural layering, these pillows can be scattered loosely across a sofa, or piled on a chair for maximum impact. They can be grouped together randomly by colour, or picked out as a feature accent.

# Hand Painted

Imagine a sun soaked Tuscan hillside filled with wildflower blooms. Imagine taking a watercolor brush and capturing the essence of it directly to canvas. Or think of sitting on a windy coastal outcrop somewhere, painting the seabirds and the peeling texture of the boats far down below. Our hand painted story aims to capture the expressive detail and spontaneity of watercolor and acrylic painting, translated in a detailed print. You can see the brushstrokes and the splashes of paint in a way that makes every pillow feel unique and bespoke.

# Colour Blocking

This geo story is our interpretation of a universal interior trend that is appealing to maximalists and minimalists alike. It's essentially a story of clean interlocking repeating solid shapes, and lines. The colours are occasionally subtle but most often off beat, acknowledging a touch of influence from both cubism and the 80's Memphis movement. Perfect for adding colour accents.

# Fanciful Opulence

Celebrating the past and the future, these opulent and eclectic prints are classically elegant, and at the same time they are totally fitting to the current maximalist interior trend. From deco influences to Japanese watercolor, the rich, diverse and eclectic mix of pattern mirror a decadent and luxurious past, but with a new twist of imaginative fantasy.

# Exotic Tropic

Greenery and tropical accents are now mainstay in interiors worldwide. We wanted to add new drama and interest to our pillows in this story specifically by utilizing scale and placement as an eye catcher -almost like a snapshot of a tropical garden through a camera lens. We played with proportion and layering to create a story of mix and match prints with dramatic visual appeal for any modern urban oasis.

# California Garden

Digital printing is really great for achieving vibrancy and depth of color in photographic designs. This punchy and dramatic floral abstract story was created by manipulating photos of real flowers, seen in abundance in a summer Californian landscape. Hazy days and sultry evening light is conveyed with translucent layers and filters, so the effect is dramatic and contemporary, and at the same time warm, harmonious and sunny. It's like pop art meets impressionism.
